Description

The UNH Graduate Certificate in Coastal Policy offers students the opportunity to develop competencies in the U.S. coastal policy process, the science-policy interface in coastal systems, and coastal institutions and governance. This certificate is appropriate for a wide range of students and professionals with interests in applied science, policy, and/or management in coastal systems. The certificate can be pursued as a stand-alone credential or in concert with another degree at UNH. Part-time and hybrid pathways through the certificate are available.

Requirements

The Coastal Policy Certificate requires a minimum of **12 credits** made up of one required core class, a seminar requirement, at least six credits of electives, and one required practicum.
