<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-international-business-economics-option>

Description

The Option in International Business and Economics offers an interdisciplinary course of study, providing strong business training for students pursuing careers at organizations with an international focus, particularly in multinational corporations, international banks, and government agencies. It achieves this by combining general business training with in-depth knowledge in economics, finance, and management.
