

SOCIAL STUDIES OF SCIENCE AND TECHNOLOGY MINOR

<https://cola.unh.edu/history/program/minor/social-studies-science-technology>

SOC 565	Environment and Society
Total Credits	20

¹ with approval of topic by the coordinator

Description

How are our lives being changed by technology? Why is science so influential in our society? Is modern science superior to traditional ways of knowing nature? Are science and technology doing more harm than good? The minor in social studies of science and technology enables students to seek answers to such questions through the perspectives of the humanities and social sciences. In this minor, students select courses from a range of disciplines, including anthropology, history, communication, sociology and philosophy, all of which shed light on the role of science and technology in modern society.

The minor presupposes no specialized scientific background and may be combined with any undergraduate major.

Students interested in taking the minor should contact the coordinator, [Fredrik Meiton](mailto:Fredrik.Meiton@unh.edu) (Fredrik.Meiton@unh.edu), Department of History, Horton Social Science Center.

Requirements

To complete a minor in social studies of science and technology, students must complete five courses (20 credits) with a grade of C- or better, choosing no more than three courses from a single department.

Academic policies related to minors.

Code	Title	Credits
Required Courses		
Select five courses from the following:		20
CEE 520	Environmental Pollution and Protection: A Global Context	
CHBE 410	Energy and Environment	
CMN 696W	Seminar in Media Studies ¹	
CMN 772	Seminar in Media Theory (topic: Critical Approaches to New Media)	
ENGL 415C	Literature and Medicine	
GEOG 405	There Is No Planet B	
GEOG 670	Climate and Society	
HIST 425	Foreign Cultures (topic: Energy and Society: A Global History)	
HIST 498	Explorations of Historical Perspectives (topic: History of Animals)	
HIST 522	Science in the Modern World
