

# YOUTH DRAMA MINOR

<https://cola.unh.edu/theatre-dance/program/minor/youth-drama>

## Description

If you want to connect with children through the dramatic arts in settings inside or outside the classroom, the Youth Drama Minor is for you. Whether you're interested in elementary school teaching or working as an artist, you'll learn skills in storytelling and theatre, and you'll have the opportunity to work with our master puppeteer. You'll also explore the values and practice of incorporating the arts into a non-arts educational setting. Combine this minor with a major such as business, social work or education, with the option to pursue a fifth-year master's degree in teaching through the UNH Department of Education. In addition to our award-winning faculty, our Department of Theatre and Dance offers more than 25 performance opportunities every year in musicals, plays and dance concerts, including student productions.
