CYBERSECURITY POLICY MINOR

https://manchester.unh.edu/program/minor/cybersecurity-policy

Description

The Minor in Cybersecurity Policy introduces students to the basics of cybersecurity, as well as to societal and business mandates for incorporating cybersecurity into an organization's policies and governance structures. We study techniques for communicating about cybersecurity, and we explore solutions for sustaining cybersecurity within a variety of organizations.

This minor is available to CPS Online, Durham, and Manchester students. Students must be accepted into a participating accelerated master's program to complete this minor.

Depending on the courses chosen, this minor may be completed 100% online or in a hybrid format (online/in-person courses). Some courses may be taken at any time, but other courses may be taken only *after a student is accepted into one of the following participating accelerated master's programs*:

• Master of Science in Cybersecurity Policy and Risk Management (MS CPRM)
• Master in Public Policy (MPP)
• Master of Public Administration (MPA)

Requirements

• <u>Academic policies related to minors.</u>
• Some courses may be taken at any time, but other courses may be taken only after a student is accepted into one of the participating accelerated master's programs.
• The minor requires at least five courses. All courses for the minor must be completed with a minimum grade of C- and an overall GPA of 2.0.
• Note that higher minimum grades and GPA may be required for these courses to count toward an undergraduate major or master's degree.
• No more than two courses used to satisfy undergraduate major requirements may be used for the minor.
• If a student is enrolled in both sections of a dual-listed course, only one course section will be counted toward the minor requirements.

Pursuant to <u>Graduate School policy for accelerated master's</u>*, students must complete 90 credits before enrolling in 800-level courses. Students apply to the accelerated master's program in their junior year and once admitted complete 800-level courses in their senior year.*

Code	Title	Credits
Required Core Courses		
HLS 455	Introduction to Cybersecurity	4
or CS 527	Fundamentals of Cybersecurity	
or CMPL 525	Foundations of Cybersecurity
